

Programmering A

4th Weekly Note (E10, Week 38)

Reading for Week 38

Sections 6.2–6.5, 10.1–10.4 in “Java Software Solutions”;
Section 3.18 in “Noter og opgaver”;
Look at the classes “Comparable”, “Iterable”, and “Iterator” in the Java class library:
(<http://download-llnw.oracle.com/javase/6/docs/api/>).

Lecture: Tuesday, September 21, 10-12 (U140)

In this lecture we will repeat the basics of classes and objects and continue on this topic with a focus on keywords (public vs private, static).

Lecture: Thursday, September 23, 8-10 (U140)

In the first part of this lecture we will learn how to use interfaces and practice our knowledge of object orientation. In the second part we learn how exceptions are propagated and how we control this mechanism.

Lab: see schedule for time, IMADA’s terminalrum

Please continue on the remaining tasks from the previous weeks and also do Exercises 26 and 27 in “Noter og opgaver”.

Get practical help on the first part of your project.

Exercises: see schedule for time and room

Continue with tasks from the previous week and continue to discuss the first part of the project. Discuss Exercises 3.1–3.3, 3.8, 4.1, and 4.4 in “Java Software Solutions”.
