Introduction to Computer Science
E04 – Lecture 7

Lecture, October 18

We finished chapter 5 on algorithms and began on sections 3.5 and 4.5 on security.

Lecture, October 25

Kim Skak Larsen will lecture on databases concentrating on sections 9.1 and 9.2.

Lecture, November 1

Rolf Fagerberg will lecture on file structures from section 9.5. Then we will continue with security and encryption.

Discussion section: week 44

Discuss the following problems from the textbook in groups of three or four.

1. Discuss problems 6, 7, 8, 9, 10, 17, 22, 24, 26, and 35 on pages 395–399.
2. Discuss questions 3, 6, 7, and 8 on page 400.

Assignment due 8:15, November 2

Late assignments will not be accepted. Working together is not allowed. (You may write this either in English or Danish, but write clearly if you do it by hand.)

1. Problem 12 on pages 396.
2. Problem 30 on pages 398.
3. Problem 34 on page 398.
