Computer Security – F02 – Lecture 6

Lecture, March 5

We covered chapter 5 and discussed general goals and required features of security in operating systems, as an introductions to chapters 6 and 7 in the textbook.

Lecture, March 12

We will cover chapter 6 in the textbook.

Lecture, March 19

We will cover chapter 7 and possibly begin on chapter 8 in the textbook.

Discussion section, March 21

- Read chapters 4 and 5, concerning local security and file and file system security, respectively, at
  http://www.linuxdoc.org/HOWTO/Security-HOWTO.html
- Do problem 6.2 in the textbook.
- Try the `umask` command. What effect does it have when you later try to copy a file? Or when you later try to create a file in `emacs`?
