Discussion section, April 4

- Read the first two sections, Microsoft and "Trustworthy Computing" and Judging Microsoft, from the February 15, 2002, issue of CRYPTO-GRAM, by Bruce Schneier. It can be found at http://www.counterpane.com/crypto-gram-0202.html.
  Note that there is some clear bias in what he writes, but this newsletter is an interesting source of security information in general.
- Do problems 7.4 and 7.11 in the textbook.
