

- In week 50 we discussed end of Chapter 10 ( “Graph Algorithms”) of the course book and started with Chapter 11 ( “Search Algorithms for Discrete Optimization Problems” ).
- The exercises from Chapter 11 to be discussed in the tutorial on Thursday: 11.3 and 11.4.
- Next week (last lecture) we will discuss Chapter 12 of the course book.
- On Thursday 17th (8am - 10am) you are supposed to give a short presentation of what you did for mandatory assignment 4. This presentation should have a length of approx. 10-15 minutes. More details will be given next Monday (14th of December).
