

- The lectures in week 36 will be Tuesday and Thursday 4pm-6pm.
- This weeks topics: Double Pushout Approach, Introduction to the first mandatory project, Graph Grammars, Exploring Chemical Spaces via Graph Grammars, if time allows we will cover Subgraph Isomorphism (Ullmann algorithm).

- Mandatory Reading: Pages 4-9 of “Algebraic Approaches to Graph Transformation, Part I:” by Corradini et al. (1996)
Mandatory Reading: “An Algorithm for Subgraph Isomorphism” by Ullmann (1976)
- Recommended Reading: Chapter 1 of “Fundamentals of Algebraic Graph Transformation”: General Introduction. by Ehrig, H., Ehrig, K., Prange, U., Taentzer, G., 2006
