

DM85 Networks and Integer Programming — Ugeseddel 11

Second project Will be available on April 23 and must be handed in May 21 at noon. I will return the projects on friday may 25 where the course will end.

Moving lectures We agreed on friday april 20 to move the two lectures on april 23 and 30 to the “usual” tuesday spot, i.e. 23/4 to 24/4 12-14 and 30/4 to 1/5 12-14.

Lecture on April 24, 2007 We will discuss more on Lagrange relaxation and look at the exercises LW chapter 9: 9.9 ,9.13, 9.14. We will also start on Chapter 11 on Column generation.

Lecture April 27, 2007 Column generation. LW chapter 11.

Lecture May 1st, 2007 We will discuss some exercices on Lagrange relaxation. They will be posed next week. We will also cover some other stuff to be mentioned later.

Weeks 19,20: No classes Instead you should use all your DM85 time to work on the second project.

Important: seminars of high relevance to you On May 7, Luis Paquete who is visiting in week 19 will give a lecture on multiobjective optimization in the seminarroom from 10-12 (usual DM85 time). Please come and learn about this very relevant topic.

On May 22 14.15 in the seminarroom Jacob Birkedal Nielsen from the company Transvision will give a talk on practiac vehicle routing problems and how to solve these. Please come to the also.
