// A demo application of TreeNode.java. *
//*****

```

```
import TreeNode;
```

```
public class TreeNodeApplication
{
    public static void main (String [] args)
    {
        TreeNode t;

        t = new TreeNode (4,
            new TreeNode (2,
                new TreeNode (1),
                new TreeNode (3)),
            new TreeNode (6,
                new TreeNode (5),
                new TreeNode (8,
                    new TreeNode (7),
                    new TreeNode (9))));

        // This prints : 1 2 3 4 5 6 7 8 9
        t.printInOrder ();
    } // main
} // TreeNodeApplication
```
