

Index

accumulation point	29
ball	17
boundary of a set	29
boundary point of a set	29
bounded set	43
closed set	17, 26
closure of a set	29
compact set	41
connected set	52
contact point	29
continuous function	22ff, 34ff, 49ff, 53, 58
convergence of a sequence	21, 31
cover and subcover	37
dense set	33
finite intersection property	43
function	2
Hausdorff space	32
Heine–Borel Theorem	39, 48
homeomorphism	58ff
homeomorphic or topological equivalent spaces	59
image and inverse image of a function	2
induced topology	27
injective or 1–1 function	3
inner product	12
interior of a set	28
metric	15
neighbourhood	27
norm	10
open set	17, 26
path	54
path connected set	54
product topology	27
separable space	33
sequentially compact set	41
step–path	57
surjective function	3
uniform continuity	25, 50
