Peter Schneider-Kamp

Object-Oriented Programming B
7th Weekly Note (E12, Week 51)

Reading for Week 51

Sections 11.4, 12.1, and 12.1–12.4 of "Introduction to Programming Using Java"

Lecture: Monday, December 17, 12-14 (U91)

In the last lecture, first we will learn about file handling with streams. This will enable us to take a look at network programming using URLs and using direct socket connections. We will also learn about simple multi-threading and how to use it for implementing client-server systems.

Discussion: see detailed schedule on course home page

First discuss Quizzes 11.1–11.2, 11.5, 11.7–11.9. Solve Exercises 11.1, 11.3, and 11.4.

Lab: see detailed schedule on course home page

Solve Exercises 12.2, 12.4, and 11.3.
